Easy Catalog is a powerful software for the creation of customized catalogs that can be distributed to a large public and can be published on the WWW and intranet. Easy-Catalog makes possible to assemble catalogs and catalogs standard based on the standard CEB-107: 2000. The catalogs can be published on the WWW and distributed through intranet. Easy-Catalog is totally independent from the database, so you don't have to buy database technology but you can edit the catalog using text files (ASCII) and images instead. It allows to define colors and fonts and to edit these. It's possible to insert images from the graphical environment of Easy-Catalog or to upload them on a server (with a simple upload form that can be integrated in the web). Easy Catalog can export the catalogs in rtf and html format and they can be inserted on a HTML page of the site with the file browse form of the browser. Easy Catalog has a record list with function of "Bookmark". You can create many different catalogs and you can read catalogs using this tool. Easy-Catalog allows to insert any number of catalogs and also to link catalogs to catalogs to link catalogs. You can filter catalogs using keywords. Easy-Catalog allows to assign articles, images and technical descriptions to a catalog. It's possible to edit the technical descriptions and to customize colors and fonts. This software doesn't install any database but it can be integrated to an Access database. Application limitations: ☒ The catalogs are limited to 300 pages. ☒ The insertion of images is restricted to 15 pictures by PDF format and the image can be resizeable. ☒ The creation of diagrams and images can be done by an external tool like Acdsee. ☒ The creation of mathematical formulas is not possible. ☒ The possibility to insert images is limited to ISO_8859-1 (Latin). This limitation can be resolved by the use of PNG format images or by exporting these images to BMP or GIF. ☒ The catalogs must be saved on a local area. ☒ The catalogs can't be sent over the Internet. ☒ The localization of the catalogs is limited to English. ☒ The location of the databases used for the catalogs is specified on the tool. This allows to specify the database user and a new location can be chosen in 09e8f5149f
