It displays all video data as if you were sitting in a living room watching a film on your TV screen. Description: Luxand Blink! is a powerful Internet Explorer extension that monitors your browsing activity. It blocks pop-up ads and other unwanted Internet sites. You can also create a

list of unwanted sites and have Luxand Blink! block them when you visit them.

Description: Luxand Blink! is a powerful Internet Explorer extension that monitors your browsing activity. It blocks pop-up ads and other unwanted Internet sites. You can also create a list of unwanted sites and have Luxand Blink! block them when you visit them.

Description: A list of the most visited websites can

provide you with some interesting information. In most cases, it's a good idea to block a particular site by using a browser extension. Luxand Blink! is a free browser extension for Internet Explorer that enables you to create a list of the most visited sites on your computer. You can easily manage this list and use it to block or allow websites. To create a list, you must have an Internet connection and

select a directory. When you add a site, it is displayed in a popup menu that can be sorted and filtered. You can also select the site's parent directory. This is used to create a hierarchy of sites that can be configured as a single block or individually. Browse history is a useful feature. You can see the sites you've already visited and select one for a quick visit. Luxand Blink! includes a variety of other features,

such as a popup blocker, private browsing and a quick button to download Flash videos. You can find Luxand Blink! in the downloads section of the website.

Description: A list of the most visited websites can provide you with some interesting information. In most cases, it's a good idea to block a particular site by using a browser extension. Luxand Blink! is a free browser extension for

Internet Explorer that enables
